

STAPLEHURST PARISH COUNCIL NOTES (for October 2016)

Neighbourhood Plan Update – At the time of writing these notes (early September) Maidstone Borough Council's Strategic Planning, Sustainability and Transportation Committee is due to discuss the Examiner's report on the Staplehurst Neighbourhood Plan on 13th September. The proposal before the Committee is to accept the Examiner's recommendation that subject to some modifications the plan should proceed to referendum. If the Committee agrees to the proposal Maidstone Borough Council will organise a referendum when all Staplehurst's registered electors will have the chance to vote. The earliest date for a referendum will be in November. Please check the village website www.staplehurstvillage.org.uk for latest news on progress.

Summer Play Scheme – These are the first notes written after the conclusion of the Summer Play Scheme which was held for three weeks in August at Staplehurst School. Our thanks go to the school for the use of its outstanding facilities and to Maidstone Borough Council for contributing towards the funding costs.

Village Clean-Up – As these notes are written in early September it is not known what kind of conditions reigned on Saturday 17th September when the second clean-up of 2016 took place. Whatever the weather, we are sure that Staplehurst is a tidier place after the event. Our thanks go to all who took part, to the Youth Club for the event HQ, to the WI for refreshments and to Maidstone Borough Council for lending equipment and taking away the bags of collected rubbish.

Tree Walk – On Saturday 15th October at 10.00am a warden from the Kent Tree and Pond Partnership will lead a walk around the village to identify trees and to assess their importance and ecological value. The walk should last for approximately two hours. There will be no charge to join the walk but the number of participants will be limited for safety reasons. For further information and to sign up to participate please contact the Parish Office.

New National Phone Number 105 for Electricity Network Operators - A new national phone number "105" has been launched by electricity network operators for customers to call should they need to report or obtain information about a power cut in their area. Key points to note about this service are:

- Dialling 105 will put you through to your local electricity network operator, the company that manages the cables, power lines and substations that deliver electricity into homes and businesses in your area.
- 105 is just one of the ways that you can contact your electricity network operator. There are other phone numbers and you can also contact them via their website.
- 105 is a free service in England, Scotland and Wales; you can call 105 no matter who you buy electricity from.

- You can also call 105 if you spot damage to electricity power lines and substations that could put anyone in danger. If there is a serious immediate risk, you should call the emergency services too.

Vulnerable customers who would like to sign up to UK Power Networks' Priority Services Register can still call 0800 169 9970, email psr@ukpowernetworks.co.uk or apply online at www.ukpowernetworks.co.uk/priority.

KCC Consultation on Local Transport Plan - Kent County Council has launched a public consultation about its draft local transport plan. The plan highlights initiatives that have national profile, such as a new Lower Thames Crossing and Operation Stack, as well as important local ones.

The consultation runs until 30th October. To view the consultation documents and to comment on them go to KCC's website at <http://consultations.kent.gov.uk/consult.ti/LTP4/consultationHome>.

Surgeries at the Library – The Parish Council holds a surgery every Saturday in the library between 10.00am and 11.00am. Do come along to meet a parish councillor and ask questions about local issues. The next Borough Councillor surgery will be on Saturday 29th October between 10.00am and 12.00 noon. The next PCSO surgery will be on Saturday 12th November between 10.00am and 11.00am.

Vegetation – Plants, hedges and trees can reduce the width of footpaths and visibility on the highway. Property-owners are responsible for maintaining their hedges; failure to do so may generate anything from a polite neighbourly request to a report to Kent County Council (03000 41 81 81 - option 2 - or <http://www.kent.gov.uk/roads-and-travel/report-a-problem>). KCC will give owners a deadline to remedy a situation or as a last resort carry out the work itself and send owners the bill. To avoid such difficult situations and out of consideration for others please check your boundaries regularly, not just for vegetation but for any other overflow from your property such as loose gravel from paths and drives and rubbish that may have escaped from bins.
